Dear Parents

As part of our school improvement plan we are focusing on the use of coaching to help with our focus on "Be the Best you can Be!" Throughout this year's PSHE curriculum, teaching n will focus on children's long and short term goals and the skills needed to achieve them. They will all be given a wrist band, which may be worn in school, and a card with GROW on. Please speak to your child about their goals and what they have focused on in their lessons.

Throughout the year we are hoping to have a range of visitors in school to talk about how they achieved their dreams. So far we have been visited by Craig Figes, Olympic athlete and David Hemery. Next term we will be visited by an author and a playwright.

If you know anyone that could come and talk to the children, or you would like to yourself, then please do let me know. We would like to he children to meet and question a whole range of professionals- nurses, doctors, mechanics etc. so please do volunteer to come in and talk perhaps with your child's class first.

If you have any questions about the coaching programme please do come in and talk to us.

Kind Regards

Jan Nock
